SOUTHERN AFRICA & BEYOND

INKOSI GROUP

BUILDING WITH PURPOSE

COMPANY PROFILE

ABOUT COMPANY

Inkosi Group is a diversified, 100% Black youth-owned African business group delivering integrated solutions across energy, fuel infrastructure and petrochemical engineering, construction, logistics, security and consultancy.

Established in 2022, Inkosi Group is building a growing presence across South Africa and the wider Southern African Development Community (SADC), supporting the development, operation and maintenance of critical infrastructure and industrial projects.

Our core capabilities include petroleum infrastructure development, service station construction, fuel storage systems, tank and pump installations, bulk fuel infrastructure, petroleum product supply and distribution, civil works, general construction, logistics coordination and specialist security services. Through our consultancy services and strategic partnerships, we also support project coordination, technical delivery and tailored solutions to meet diverse client requirements.

With a focus on practical execution, commercial understanding and long-term value, we bring together technical expertise, reliable supply networks, experienced contractors and disciplined project management. Our integrated capabilities allow us to coordinate multiple project requirements while delivering solutions aligned with client specifications, operational demands and applicable industry standards.

Inkosi Group is committed to accountability, quality, safety, efficiency and professional service delivery. We recognise that successful projects depend on more than infrastructure alone; they require strong relationships, effective coordination, responsible management and consistent performance.

Our commitment to transformation, youth empowerment and inclusive economic participation is reflected in our ownership structure and our ambition to contribute meaningfully to Africa's industrial and economic development. In South Africa, Inkosi Group holds Level 1 B-BBEE status and operates within applicable regulatory and industry frameworks.

Corporate Registration

South Africa: INKOSI FUEL AND LOGISTICS (PTY) LTD
Registration No: 2022/205455/07

Zimbabwe: INKOSI FUEL & LOGISTICS (PRIVATE) LIMITED
Registration No: 142378A01102026

As we continue to expand our footprint, our vision is to establish Inkosi Group as a leading African infrastructure, energy and services group — building lasting partnerships, strengthening critical infrastructure and creating sustainable economic opportunities across the continent.

INKOSI GROUP — BUILDING WITH PURPOSE.

WHY CHOOSE US

MISSION

Our mission is to deliver reliable, efficient and innovative solutions across our diverse business sectors through skilled people, strategic partnerships, and high-quality products and services. We are committed to safety, customer satisfaction, empowerment and sustainable business practices while creating long-term value for our clients, partners and communities.

CORE VALUES

AT INKOSI GROUP, OUR OPERATIONS AND RELATIONSHIPS ARE GUIDED BY STRONG PRINCIPLES THAT DEFINE WHO WE ARE AND HOW WE CONDUCT BUSINESS:

- UNCOMPROMISING QUALITY IN ALL SERVICES AND PRODUCTS
- INTEGRITY AND HONESTY IN EVERY BUSINESS ENGAGEMENT
- TRANSPARENCY ACROSS ALL OPERATIONS AND PROCESSES
- BUILDING AND MAINTAINING LONG-TERM BUSINESS RELATIONSHIPS
- UNWAVERING PROFESSIONALISM AND ACCOUNTABILITY
- COMMITMENT TO HEALTH, SAFETY AND ENVIRONMENTAL RESPONSIBILITY

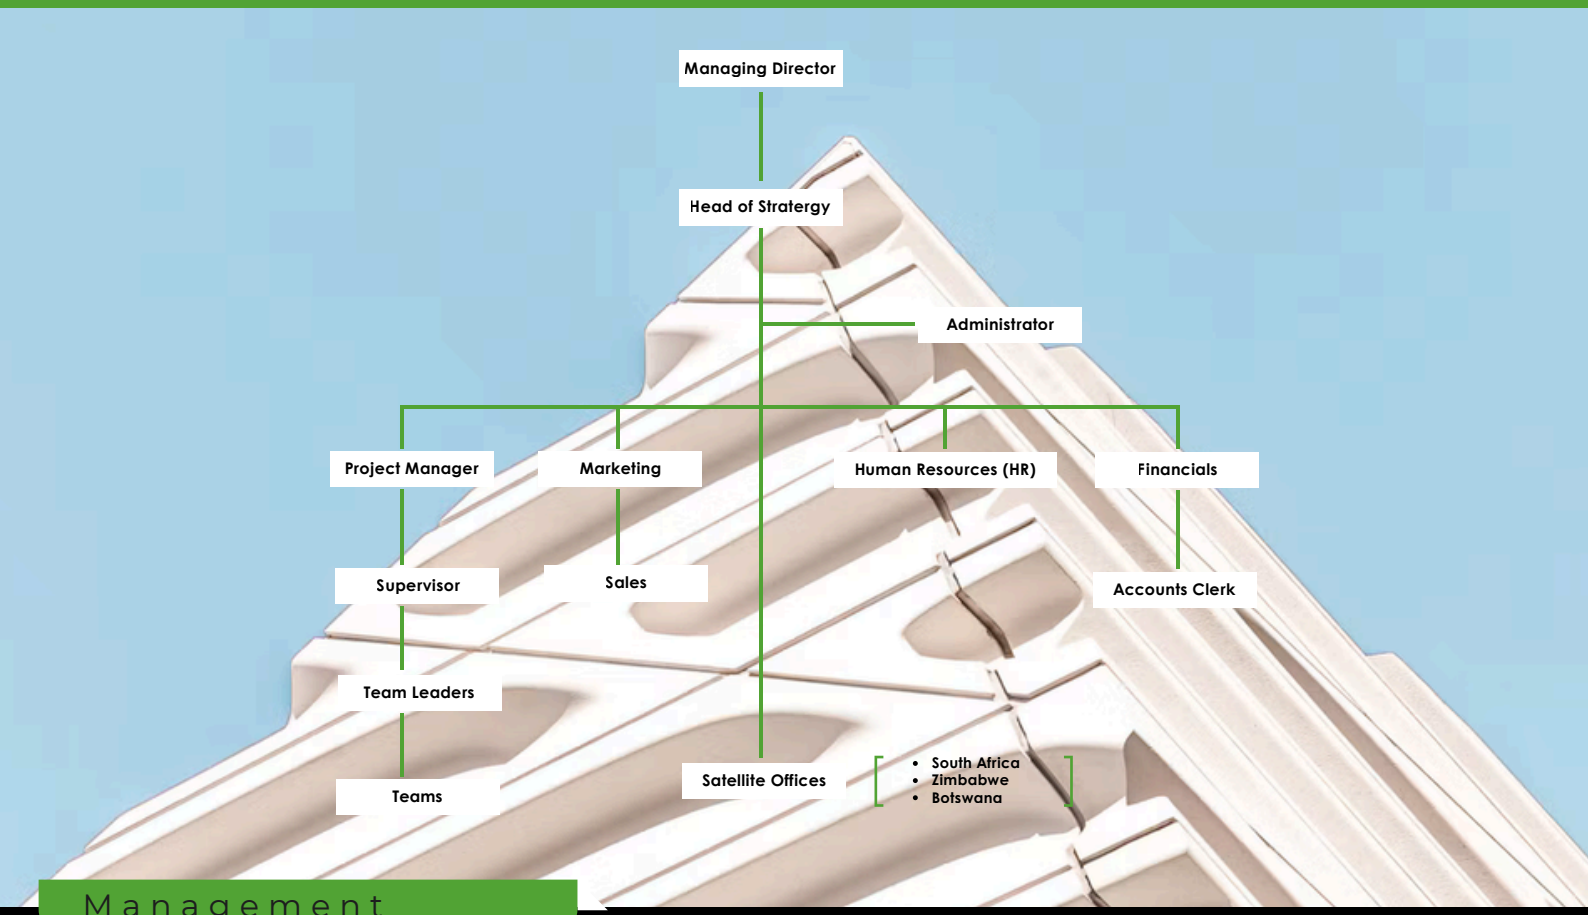

Management & Staff

Inkosi Group maintains a structured and experienced management and operational team comprising the Managing Director, Operations Manager, Project Managers, Site Supervisors, Health and Safety Officers, Logistics Coordinators, Administrative Personnel, Finance and Compliance Officers, Security Management Personnel and a skilled workforce deployed across various projects and operational sites.

The company has the capacity to execute multiple projects simultaneously across the petroleum infrastructure, logistics, construction, security, and energy sectors, depending on project scope and client requirements. Where practical, local labour and subcontractors are engaged to promote economic development, job creation and community empowerment.

All financial, administrative, procurement, and operational functions are fully computerized and managed through the company's head office. Project activities, performance indicators and operational milestones are monitored regularly to ensure compliance with contractual obligations, safety standards, project schedules, budgets and quality requirements.

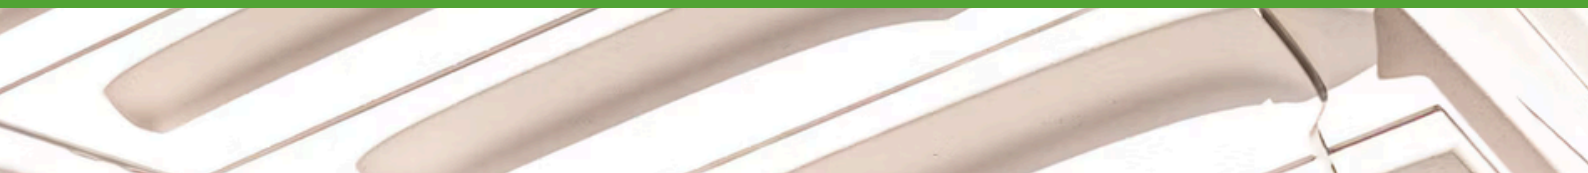

Management

The objective of Inkosi Group's management is to recruit and retain highly competent personnel, continuously develop employee skills, and cultivate a professional workforce capable of delivering exceptional service across all business divisions.

The company promotes a culture of leadership, accountability, innovation, and teamwork while encouraging open communication throughout all levels of the organization. Management remains committed to maintaining strong client relationships through professionalism, transparency, and operational excellence.

Occupational Health and Safety, regulatory compliance, employee development and effective labour relations are regarded as strategic priorities. Through this approach, Inkosi Group ensures a safe, productive and sustainable working environment while consistently delivering value-driven solutions to its clients.

HEALTH & SAFETY

Inkosi Group is committed to maintaining the highest standards of Health, Safety, Environment, and Compliance (HSEC) across all areas of operation. The company recognizes that the health and safety of employees, clients, contractors, and surrounding communities are fundamental to sustainable business success.

All activities are conducted in strict accordance with the Occupational Health and Safety Act (Act 85 of 1993), applicable South African legislation, industry regulations, and client-specific safety requirements.

Regular safety inductions, toolbox talks, risk assessments, and site inspections are conducted to identify and mitigate potential hazards before work commences. All personnel are provided with the appropriate Personal Protective Equipment (PPE) and receive ongoing training to ensure safe work practices within construction, petroleum infrastructure, logistics, security, and energy environments.

Through a proactive approach to risk management, incident prevention, environmental responsibility, and continuous improvement, Inkosi Group strives to maintain a safe, compliant, and productive workplace on every project undertaken.

Quality & Operational Excellence:
Inkosi Group is committed to delivering work that meets defined quality, technical, and client requirements. Through effective planning, supervision, documentation, and continuous improvement, we maintain consistent standards across every project and operational environment.

Quality Management

Our operations are guided by a strong commitment to quality through:

- Skilled workforce development and training
- Effective risk assessment and control
- Compliance with safety and environmental standards
- Strong leadership and accountability

SITE SAFETY

Project Management

Project management is a core function of Inkosi, Ensuring efficient planning, coordination and execution of all projects.

We deliver fuel infrastructure and energy-related developments across both urban and industrial environments, supporting clients with reliable solutions that enhance operational efficiency and service delivery.

Petroleum Engineering

Inkosi applies practical petroleum knowledge to ensure the safe handling, storage and distribution of fuel products.

Our technical approach includes:

- Fuel quality control and handling procedures
- Safe storage and transportation practices
- Compliance with petroleum industry regulations
- Risk management in fuel logistics and operations

We align our operations with industry best practices to ensure product integrity, safety, and environmental responsibility across the fuel supply chain.

ENERGY & LOGISTICS

Inkosi Fuel & Logistics is a dynamic division of Inkosi Group, delivering integrated logistics and petroleum solutions tailored to meet the growing demands of modern industries across Southern Africa.

We specialize in reliable fuel supply, transportation, and logistics coordination, providing efficient end-to-end solutions that support commercial, industrial, mining, and infrastructure operations. Through strategic partnerships, advanced fleet management systems, and operational expertise, we ensure dependable service delivery across local and cross-border markets.

Our logistics capabilities extend beyond conventional transportation. We facilitate the sourcing, movement, and delivery of industrial equipment, heavy-duty machinery, vehicles, and essential goods with precision, speed, and compliance. Our experienced team manages every stage of the logistics process, including customs coordination and route planning, ensuring seamless operations from origin to destination.

In the petroleum sector, Inkosi supplies and distributes wholesale fuel products including diesel, petrol, and related energy solutions to commercial and industrial clients. Our operations include regional fuel distribution and cross-border exports into Botswana and Zimbabwe, supported by efficient logistics systems and strict adherence to regulatory and safety standards.

Driven by innovation, reliability, and operational excellence, Inkosi Fuel & Logistics continues to position itself as a trusted partner in Africa's evolving energy and transport landscape.

PETROLEUM PRODUCTS

Inkosi is a dynamic energy solutions provider specializing in the reliable wholesale supply, distribution, and logistics of high-quality petroleum products. We serve a diverse client base across commercial, industrial, mining, and aviation sectors, ensuring consistent fuel availability and operational efficiency. With a strong focus on reliability, safety, and compliance we deliver tailored fuel solutions designed to meet the evolving demands of modern businesses. Our integrated supply chain and strategic sourcing partnerships enable us to provide competitive pricing while maintaining uncompromised quality standards.

Our core offerings include:

- Supply of Diesel (50ppm & 10ppm) for industrial, commercial, and transport operations
- Supply of Gas, including LPG and related energy fuels
- Supply of Aviation Fuel (Jet A-1) for airports and private aviation clients
- Bulk fuel delivery with efficient, secure, and timely logistics
- Depot-based sourcing and nationwide distribution capabilities

At Inkosi, we are committed to powering progress by delivering dependable energy solutions that drive growth, productivity, and long-term success for our clients.

Construction & Infrastructure

Inkosi Group delivers construction, civil engineering and infrastructure solutions across South Africa and the broader SADC region, with capabilities spanning general construction, civil works, building developments, brick manufacturing and specialised petroleum infrastructure.

Established in 2022, Inkosi Group was founded with a vision to build a modern African enterprise focused on innovation, quality, operational excellence and sustainable infrastructure development.

As a CIDB-registered contractor and participant in the SAFCEC Enterprise Development Programme, our construction operations are built around quality workmanship, regulatory compliance, safety and efficient project execution. We operate in accordance with applicable occupational health and safety requirements and relevant industry standards, ensuring that projects are professionally managed from planning through to completion.

Our capabilities include civil works, road construction, residential and commercial developments, pool installations and maintenance, fuel infrastructure and specialised construction solutions. Within the energy sector, we support the development and maintenance of service stations, fuel storage systems, LPG installations, forecourt infrastructure, pipelines and depot-related facilities.

In Zimbabwe, Inkosi Group also operates within the building materials sector through the manufacturing and supply of quality concrete bricks for residential, commercial and infrastructure developments. Our brick manufacturing operations are focused on producing reliable, durable and fit-for-purpose building products for contractors, developers, hardware suppliers and private customers, supporting the growing construction market across Zimbabwe.

Supported by experienced teams, modern equipment and strategic industry partnerships, Inkosi Group provides reliable, fit-for-purpose solutions designed to meet project requirements while maintaining high standards of quality, safety, efficiency and performance.

Through our construction, manufacturing and infrastructure capabilities, Inkosi Group is committed to delivering durable projects and dependable building products that support economic growth, industrial development, energy infrastructure and sustainable communities across Southern Africa.

FUEL SYSTEMS & INFRASTRUCTURE

Inkosi specializes in the installation, maintenance and servicing of fuel systems for service stations, depots and commercial facilities.

- Supply & Installation of Jet fuel storage, LPG, Diesel, Petrol & Paraffin tanks (above & underground)
- Canopy, signage & shopfitting Installation
- Pipeline installation and pressure testing
- Supply & Installation of Pump dispenser, servicing and repairs
- Tank cleaning, equipment servicing & inspections
- Installation of filtration systems and metering equipment
- Calibration of fuel meters and flow systems

All work is executed under strict safety and compliance standards, ensuring reliability, environmental protection, and operational efficiency.

SECURITY

At Inkosi Security Solutions, security is engineered not improvised. We provide proactive, intelligence-led protection designed to safeguard people, businesses, events and critical environments in an evolving risk landscape.

PSIRA-registered, our security operations are built around professionalism, discipline, compliance, vigilance and rapid response. We focus primarily on Cybersecurity and Event Security, supported by VIP Escort & Protection services tailored to the needs of individuals, executives, public figures and high-profile events.

Our Cybersecurity capabilities focus on protecting digital environments, identifying vulnerabilities, strengthening systems, and reducing exposure to evolving cyber threats. Our Event Security teams provide structured security planning, access control, crowd management, threat awareness and on-site protection to help ensure safe and professionally managed events.

Through VIP Escort & Protection, we provide discreet, professional security support for clients requiring enhanced personal protection and secure movement.

What sets Inkosi apart is our proactive approach anticipating risks before they become incidents and applying layered security strategies to protect what matters most.

Integrity. Vigilance. Protection. Excellence without compromise.
